Reference: April Quarterly Report (01/14/2010 – 03/31/2010)

Dear Ms. Hough:

In response to your letter of May 7, 2010 that listed 2 items that needed further information.

1. There were four checks that fell within the 48 Hour Reporting period; I have researched the checks and found the following. Each of the check was received after the 48 Hour Reporting period but instead of recording the date that I received the check, I picked up the date on the check when it was written. I am mailing you copies of the check so that you can see that I picked up those wrong dates. I am unable to copy them to the electronic reporting system.
2. For the second question, I have no explanation because the procedure for reporting a last minute contribution is to record it on Schedule A and then clone it to the 48 Hour Report. There is no way that I know of to report a last minute contribution without first reporting it on Schedule A. I have amended the report to show the contribution.
